

Dual Disc II

The Dual Disc II

Introducing the Easiest, Fastest, Strongest Automated Desktop Disc Repair Machine in the World

- New Lid Mount Load System
- Repairs all Disc types
- Simple Fully automated one button operation
- Super Fast- repairs 2 discs in 1 minute!
- Cartridge design, eliminates adding water & polish
- Counter tracks repairs & notifies to change cartridge

"There is no substitute for the Azuradisc Machine. It is without a doubt the best machine on the market."

Dimensions **W**15" (38.1cm) **D**16" (40.6cm) **H** 13.125" (33.3cm) • Net weight: 53 lbs. (17.2 kg)
 • Power: AC 110-120V 220-240v

How it works:

The machine repairs 2 discs in one simple step. A liquid microabrasive formula (PoliCool™) flows onto a single polishing head which provides both the scratch removal and final polishing action while keeping the discs cool. The PoliCool™ is returned to its cartridge at the end of the cycle, leaving the discs dry and ready for a quick wipe to be put back in their cases. **Repair up to 800 discs without changing any supplies.**

Select the length of repair and press the corresponding button. A computer automates the entire process, tracks the remaining life of the cartridge and tells you when to change it.

What it uses:

Special Feature:

Introducing the new Lid Mount Load System
 Simply place discs onto the quick load spinners, close lid and turn the latch clockwise. Game Cube adaptors available separately.

- Self guiding quick load spinners latch automatically
- No knobs to twist or turn or wear out
- Comes standard with every machine
- Load & unload discs in seconds with no fatigue
