Disc Care

Prevent scratches, protect and maintain your investment

Scratch Guards

Scratch Guards are a clear adhesive laminate that act like a bumper covering the label side of the disc. Scratch Guards protect the information/foil layer, which lies just beneath the screen print. Damage to the foil layer cannot be repaired but can be prevented. Scratch Guards offer the perfect solution.

SG 00516 7

500 pack..... **\$155.00**
 5000 pack..... **\$950.00**
 10000 pack..... **\$1600.00**

Application instructions printed on the back of each guard.

Jewel Case Liners

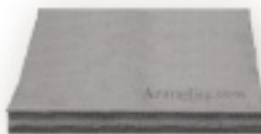

Most scratches occur inside the jewel case when the disc moves or rotates. Azuradisc has created a Jewel Case Liner that prevents these scratches from occurring. This soft material has an adhesive backing that adheres to any jewel case, adding a cushion to protect any disc from scratches. Perfect for making discs rental-ready!

JCLA 00025 4

Micro-Fiber Optical Cloth

This incredibly soft cloth is designed to remove dust, dirt, fingerprints, and other contaminants from the surface of the disc. This product works great on camera lenses, computer screens, glasses and all other optical surfaces. The special anti-static material also removes static from the surfaces of DVDs, preventing the build-up of dust. The Micro-Fiber Optical Cloth works on either wet or dry surfaces, and is machine or hand washable for repeated use.

Spray Cleaner (Anti-Static)

Laser clear anti-static formula safely cleans, polishes and protects all types of optical surfaces. Removes dust, dirt, fingerprints, residue and other contaminants from DVDs, CDs, CD-RDM and other optical discs. Works best with the Micro-Fiber Optical Cloth. Anti-Static Spray also cleans computer monitors, TV screens, eyeglasses, camera lenses and more. Alcohol & ammonia free, plus environmentally friendly!

Optical Combo Kit

Retail Ready

Optical Combo Kit

- Designed to give the consumer everything needed to keep optical surfaces clean and static-free.
- Flashy free-standing packaging looks great on your counter as well as hanging on hooks.

Contains:
 • 1 Micro Fiber Cloth
 • 2oz. (59ml) Spray Cleaner

CK 00262 3 Case of 24..... **\$199.00**

Dual Strip Security Labels

Compatible with all Magnetic style security systems, such as 3M, Sensormatic and more... Dual Strip Security Labels are a clear adhesive laminate that contains 2 security strips and also protects the label surface from scratches. Dual Strip Security Labels will not affect the performance of CD's or DVD's. The twin strips give a superior precision balance and utilize the EMagnetic Systems. Damage to the foil layer cannot be repaired but can be prevented. Dual Security Labels offer the perfect solution for surface protection and increased security.

Dual Disc II

The Dual Disc II

Introducing the Easiest, Fastest, Strongest Automated Desktop Disc Repair Machine in the World

- New Lid Mount Load System
- Repairs all Disc types
- Simple Fully automated one button operation
- Super Fast- repairs 2 discs in 1 minute!
- Cartridge design, eliminates adding water & polish
- Counter tracks repairs & notifies to change cartridge

NEW!

"There is no substitute for the Azuradisc Machine. It is without a doubt the best machine on the market."

Dimensions **W**15" (38.1cm) **D**16" (40.6cm) **H** 13.125" (33.3cm) • Net weight: 53 lbs. (17.2 kg)
 • Power: AC 110-120V 220-240v

How it works:

The machine repairs 2 discs in one simple step. A liquid microabrasive formula (PoliCool™) flows onto a single polishing head which provides both the scratch removal and final polishing action while keeping the discs cool. The PoliCool™ is returned to its cartridge at the end of the cycle, leaving the discs dry and ready for a quick wipe to be put back in their cases.
Repair up to 800 discs without changing any supplies.

Select the length of repair and press the corresponding button. A computer automates the entire process, tracks the remaining life of the cartridge and tells you when to change it.

What it uses:

Special Feature:

Introducing the new Lid Mount Load System

Simply place discs onto the quick load spinners, close lid and turn the latch clockwise. Game Cube adaptors available separately.

gcs_02508_0..... \$49.95

- Self guiding quick load spinners latch automatically
- No knobs to twist or turn or wear out
- Comes standard with every machine
- Load & unload discs in seconds with no fatigue

Package Deal

Dual Disc II repair machine plus the following:

Disc Repair Advantage

High-Speed Automation

The Advantage

Get The Advantage over the competition!

- Repairs all Disc types
- Cleans & Repairs up to 180 Discs unattended
- Automatically loads and unloads discs
- Industrial grade ready for 24/7 Operation
- Do you spend more than \$400 per month on labor?
- Pays for itself in labor savings alone.
- Quiet enough for a library, strong enough for warehouse.

The **Advantage** is the most advanced disc repair machine available to date. This machine will automatically lift a disc from a stack of damaged discs, transfer it to the repair section, micro-sand and polish the disc back to looking and working like new, and place it onto a stack of repaired, dry discs. All you need to do is simply inspect them and put them back in their individual packages!

Dimensions: H47.25" x D16.5" x W36" 150 lbs
Metric: H 120cm x D 42cm x W 91.5cm 68.1kg
Power: AC 110-120v 220-240v

How it works:

Load the Spindle up with up to 180 Average Scratched Discs, or 90 Severely Gouged Discs.

Select & Start

Select the Depth of Scratches you want to repair. Choose from a quick polish all the way up to repairing deep gouges! Press start, the discs are repaired automatically!

The discs are repaired, rinsed and polished and dropped onto an UNLOAD spindle. They are dry and ready to place in the case.

Processing Speed

Discs Per Hour

(Actual in/out may vary)

Azuradisc Scratch Guards

Top Reasons to Use Scratch Guards

A Scratch Guard can improve the ability to restore a disc to a like-new condition up to 99% by preventing skip-causing non-repairable foil damage. When a Scratch Guard is placed onto a new or perfect condition disc, the ability to restore the disc to a like-new condition is nearly 100%. You can add \$2.00 to every new disc sale by offering a 6 month or 1 year scratch protection warranty to your customers. Earn serious money and increase repeat visits when you combine Scratch Guards and disc repair service or warranties using an Azuradisc disc repair machine. Call us today for more information.

- Make money selling Scratch Guard warranties
- Increase the possibility of disc repair
- Make your discs rental-ready with added scratch prevention
- Protect your investment on rental discs
- Add security on rental discs, reducing swapping and theft
- Great promotional giveaway

Azuradisc Scratch Guards

No set-up charge

- 500 Pieces are \$165.00
- 5,000 Pieces are \$950.00
- 10,000 Pieces are \$1600.00

4 Language Instructions

- Instructions are printed on the removable liner (back side of guard) in 4 languages.
- Standard design comes with pre-printed instructions on liner

Easy Align Design

New easy-to-use design features crack and peel paper liner. This insures bubble-free application every time.

No Applicator Needed

No special tools or application stations needed!
