

The Uno One Step Disc Repair Machine

Simple

1. Simple to use

Place a scratched disc onto the spinner, close the lid. Select the repair time (choose from 30,60,90,120,180 seconds), the machine shuts off automatically when complete, the finished disc is dry and clean ready to be packaged.

2. FAST- Real Scratch Removal in 30 seconds

Not just a cleaning cycle this machine repairs and cleans average scratched discs in single 30 second run. Need to repair Deeper Scratches? Simply choose a longer cycle. This is the machine you have been waiting for. All in one step FAST repairs.

3. Low Cost

Easy to calculate cost per disc, the long lasting supply kits repair up to 220 discs before needing to change anything! Using Smart Chip Technology and the onboard microprocessor this machine tracks your usage and remaining supply levels eliminating the guesswork of actual output.

4. Auto Dry & Clean "Package Ready" Finishes

A final finishing pad automatically dries and wipes the disc at the end of the repair process, eliminating the need to spray and wipe the read side of the disc. A highly sought after feature you will not find in any other machines in this price range. It saves both time and money!

Fast

Low Cost per Disc

Choose from 30,60,90,120,180 second time cycles

Finally a Simple One Step Solution!

No Pads, or Abrasives to change during process, No Water or Polish needed!

Supply kits lasts up to 220 discs without the need to change or touch anything! Using our New Auto Timed Liquid Abrasive Suspension Technology a liquid abrasive (Policool 4.0™) is continuously mixed & recirculated to provide both the scratch removal & polishing action while also keeping each disc cool during the repair. Scratch removal and final polishing is now possible in one step.

What the machine uses:

Lasts up to 220 Discs!
